IN FAVOUR OF MOSDORFER CLAMPS

We manufacture suspension clamps on an individual, customer - specific basis for better installation with minimal tolerances.

Suspension Clamps

Mosdorfer rail manufactures suspension clamps and connectors using hot and cold forging processes. We custom - produce to enable significantly better installation with minimal length tolerances. All suspension clamps conform to EN 50119 and have a long life span.

Benefits

- Fast and simple installation
- Custom - manufactured
- Catenary wire 25-300 mm, contact wire 80 - 150 mm

Connectors

Our connectors are made from high-grade aluminium and copper alloys and guarantee a reliable connection on all types of cables. Mosdorfer Rail offers a complete range of compression and bolted connectors for all cable types. High-grade aluminium and copper alloys ensure a secure connection and reliable current flow.

Benefits

- Perfect electrical contact
- Faultless current flow
- For all cables from 10-300 mm

Outstanding performance for use on high-speed lines: CuNi2Si connectors from Mosdorfer Rail.

Made from a high - strength copper alloy, these connectors have excellent mechanical and electrical properties. CuNi2Si connectors deliver outstanding performance especially for use on very demanding high speed lines.

Benefits

- Lightweight and durable
- Very good mechanical and electrical properties
- Perfect solution for high speed lines.
